THE ONGOING FAILURE TO REPORT

YALE UNIVERSITY, QATAR
AND UNDISCLOSED FOREIGN FUNDING

Volume Two

2024
The Institute for the Study of Global Antisemitism and Policy (ISGAP) is committed to fighting antisemitism on the battlefield of ideas.

ISGAP is dedicated to scholarly research into the origins, processes, and manifestations of global antisemitism and other forms of prejudice, including various forms of racism, as they relate to policy in an age of globalization.

On the basis of this examination of antisemitism and policy, ISGAP disseminates analytical and scholarly materials to help combat hatred and promote understanding.

Background

In July 2019, at the Department of Justice (DOJ) in Washington, D.C., Dr. Charles Asher Small, Executive Director of the Institute for the Study of Global Antisemitism and Policy (ISGAP), presented the findings of an ISGAP research project which began in 2012, entitled “Follow the Money.” This ongoing research project examines the illicit funding of U.S. universities by foreign governments, foundations, and corporations that adhere to and promote anti-democratic and antisemitic ideologies, with connections to terrorism and terror financing.¹

The project revealed, for the first time, the existence of substantial Middle Eastern funding to U.S. universities (primarily from Qatar), which had not been reported to the Department of Education (DOE), as required by law. In fact, ISGAP’s research uncovered billions of dollars of unreported funds, which in turn led to the launch of a federal government investigation in 2019.

ISGAP has uncovered and established that foreign donations from Qatar, in particular, have contributed substantially to rising levels of antisemitic discourse, as well as to growing support for anti-democratic values within institutions of higher education. With the explosion of campus antisemitism in recent months, such foreign funding also raises potential security concerns, with implications at domestic and global level.

This report highlights Qatar’s relationship with Yale University. Importantly, it demonstrates that not all of Qatar’s grants to the university are being reported.

For decades, Qatar has strategically positioned itself as an international funder of education, finance, science, health, sports, arts and culture, communications, and development. As part of this positioning, Qatar has become the largest foreign donor to U.S. universities since 9/11.²

The Qatar Foundation for Education, Science, and Community Development (QF) is a non-profit organization established in 1995 by the Emir of Qatar. In 2006, the foundation changed its status to that of “a private institution for public benefit.” This meant that it could henceforth operate as a private

organization that is not subject to any of the restrictions that apply to
government entities, while the Emir of Qatar retains ownership. As a result,
Qatar has the ability to mask state funding as private sector giving.

Despite its close ties to the United States and other western countries, Qatar
has also built an extensive network of Islamist partners dedicated to
expanding its influence. For decades, it has supported numerous Islamist-
inspired proscribed terrorist entities. For example, it continues to host,
support and represent the Muslim Brotherhood (MB); maintains ties with
Iran; hosts the Taliban; supports and maintains an office for Hamas and its
exiled leadership; and has backed militias in Syria and Libya.

On October 7, 2023, Hamas, which is funded extensively by Qatar, carried
out a pogrom in Israel, murdering some 1,200 Israelis and kidnapping more
than 251 people, mostly civilians, as well as perpetrating many acts of torture
and sexual assault. This was the largest massacre of Jewish people since the
Holocaust. It is also the latest in a string of violent, deadly attacks committed
by Qatari-funded terrorists. Indeed, it comes after Qatar has funded,
protected, and helped spread Islamist extremist ideology and organizations
around the globe.

Finally, Qatar also hosts various radical Islamist leaders, including the late
Yusuf al-Qardawi, the spiritual leader of the Muslim Brotherhood. It speaks
volumes that Qardawi was able to gain refuge in Qatar, despite being
banned from entering the United States, France, the United Kingdom, the
United Arab Emirates, Egypt, Saudi Arabia, Bahrain, Tunisia, and countries.

Executive Summary

Yale University was founded in 1701 and today comprises twelve graduate schools and Yale College, with around 5,300 undergraduate students and 975 full-time faculty. Yale is a large research university with a wide array of programs, departments, schools, and centers, as well as many affiliated organizations.12

In this report, we demonstrate the existence of a substantial collaboration between Yale University and Qatar, both at institutional level and among university staff. However, contrary to federal law, many of the partnership transactions do not appear in Yale’s financial statements nor in the Department of Education (DOE) reporting system.

For several years, ISGAP has collated evidence of Qatari funding to institutions of higher education in the United States, including Yale University. Some of this funding is not reported, as required by federal law.13

In 2019, ISGAP initially exposed that U.S. universities were not declaring funds received from Qatar and other foreign sources, the Department of Education (DOE) opened a federal investigation. In the framework of this investigation, each offending university was reprimanded, warned, and instructed that it must declare its funding sources or face consequences.14

Our research reveals that Yale University has only declared one grant from Qatar since 2012, in the amount of just $284,668, yet we estimate that it has received approximately $15,925,711 during this time. It is difficult to ascertain the exact amount, as Yale does not disclose all its foreign funding. This despite that fact that, by law and according to the ethics guides of most major universities, all agreements, contracts, MOUs, and service-in-kind arrangements should be made public.

The ISGAP investigation has found that many institutions (including Yale University) remain in breach of these rules and regulations and are thus engaged in illegal activity. If the law were to be enforced properly, these universities would face serious consequences.

ISGAP’s findings reveal that some universities are:

- defrauding the US Department of Education (DOE) by not fully disclosing the financial support they receive from Qatar;
- in breach of federal law, particularly after receiving prior warnings and compliance orders;
- evading the disclosure of funding from Qatar, and potentially from other sources; and
- Failing to demonstrate transparency and accountability of funding sources through unreported payments in-kind or indirect funding.

This report highlights financial activities that could be classified as criminal and could potentially form the basis for litigation against several U.S. universities, including Yale.

The report asserts that this warrants federal intervention.

Since October 7, 2023, antisemitism has metastasized across U.S. university campuses, including at Yale University, where the antisemitic actions and slogans of the pro-Palestinian encampment helped create a particularly hostile environment for the university’s Jewish community in April 2024.

This report starts by documenting the explosion of antisemitism at Yale University since October 7, 2023. Following this, it examines Yale University’s financial relationship with Qatar, as well as the links between certain Yale faculty and staff members and Qatar. The report concludes with eight policy recommendations that ISGAP believes should be implemented as soon as possible.
Support for Extremism, Terrorism, and Antisemitism at Yale

At Yale University, there are chapters of Students for Justice in Palestine (SJP) and Jewish Voice for Peace (JVP). As explored in previous ISGAP reports on SJP and its umbrella organization National Students for Justice in Palestine (NSJP) (2019 and 2024), this is a highly problematic organization with antisemitic roots, a connection to the Muslim Brotherhood, and an extreme ideology that supports violence and terrorism. Another student organization that has been prominent at Yale is Yalies4Palestine. On October 9, 2023, the Yalies4Palestine official Instagram page posted that it “stands in solidarity with Palestinian resistance following Hamas’ October 7 terrorist attack, for which the group went as far as to state that “we hold the Zionist regime accountable.”15 The group described the brutal attack as a “right to resist” against “apartheid” “Israel occupation.”16

At Yale University, there are several student organizations that support the Boycott, Divestment, and Sanctions (BDS) movement. These organizations receive university funding.17 The BDS movement is aggressively anti-Zionist and denies the legitimacy of Israel’s very existence. The BDS movement accuses Israel of maintaining a regime of “settler colonialism, apartheid and occupation.”18 By aggressively challenging anyone who it perceives as supporting Israel’s existence, this movement creates an extremely hostile environment for Jewish students and faculty on campus.

In January 2024, the US Department of Education (DOE) opened a Title VI Shared Ancestry investigation into Yale University.19 Title VI of the Civil Rights Act of 1964 prohibits recipients of federal funds from discrimination on the basis of race, color, or national origin. A complaint letter was sent to the DOE by the Defense of Freedom Institute for Policy Studies in response to a November 6, 2023, “Gaza Under Siege” event at Yale, which was deemed by

18 “What is BDS?” BDS Movement, n.d., https://bdsmovement.net/what-is-bds
two Jewish Yale students to be “anti-Israel” after they were refused entry on the basis that they were Jewish.\textsuperscript{20}

In another notable incident, the editor of an October 12, 2023, column by Yale student Sahar Tarak, entitled “Is Yalies4Palestine a hate group?,” removed the sentences “Yes, they raped women.” and “Yes, they beheaded men.” from the piece.\textsuperscript{21} These amendments, which were made on October 25, were accompanied by a note that read: “This column has been edited to remove unsubstantiated claims that Hamas raped women and beheaded men.”\textsuperscript{22}

On November 20, 2023, over 1,500 alumni, faculty, and parents signed an open letter to the Yale administration condemning the “tidal wave of antisemitism” on campuses, including at Yale University.\textsuperscript{23} In response to “the resurgence of hate,” in December 2023, it was announced that Yale was establishing a standing advisory committee on Jewish student life to build on the work done by the Yale Antisemitism Campus Climate Group.\textsuperscript{24}

Pro-Palestinian protestors—many of whom express pro-Hamas views and chant slogans inciting violence and genocide, such as “Globalize the Intifada” and “Biden, Biden, you can’t hide, you’re committing genocide”—set up an encampment at Beinecke Plaza at Yale University on April 19, 2023, which was subsequently cleared by police. Forty-eight people were charged with first-degree criminal trespass after they refused to leave a protest.\textsuperscript{25} Encampments were subsequently erected on Yale’s Cross Campus.\textsuperscript{26}

At these encampments, witnesses reported “brazen antisemitism and violations of university policy” and “unauthorized protests blocking common

areas,” which “led to a hostile and dangerous confrontation for Jewish students on campus.” In one incident, a Jewish student leader was “surrounded and struck by a sharp object,” which led to their hospitalization.

Since October 7, 2023, a network of faculty members that “supports and amplifies the work of Students for Justice in Palestine along with other pro-Palestinian student groups and campus unions” has emerged, known as Faculty for Justice in Palestine (FJP). An FJP chapter was also created at Yale University, which declared that “we support and amplify the Palestinian civil society call for Boycott, Divestment, and Sanctions, and for an end to Israel’s occupation and colonization of Palestine.” Yale FJP also declared its “unwavering support” for the actions of the protestors at the encampment at Beinecke Plaza. The National Steering Committee of the FJP network includes Greta LaFleur, Associate Professor of American Studies at Yale.

28 Ibid.
Analysis of Yale’s Relationship with Qatar

Yale University’s financial reports to the Department of Education (DOE) do not mention Qatar’s financial support or Yale’s relationship with Qatar. In the DOE reporting system, Yale has disclosed a single Qatari contract worth $284,668, dated July 1, 2015, from anonymous donor #121.\(^{33}\)

The Office of the General Counsel of the DOE published the findings of an ongoing investigation into Yale University in October 2020. In this report, the DOE revealed that “Yale University apparently failed to comply with federal reporting obligations when it underreported its foreign gifts and contracts by $375 million,”\(^{34}\) and that “Yale additionally failed to report its foreign gifts and contracts for four years, then retroactively reported them.”\(^{35}\) The above-mentioned Qatari contract was among them.

As the DOE stated, “Yale University also retroactively reported many of its foreign gifts and contracts, but this does not fulfill its obligation to report its gifts and contracts for the preceding six months, twice a year.”\(^{36}\)

**ISGAP has discovered that Yale University continues to receive financial support directly and indirectly from Qatar through the following activities, which remain unreported to the DOE:**

- Qatari-funded joint projects involving Yale employees.
- Financing projects by subsidiaries
- Placement of graduates
- Seminars, conferences, and debates
- Fellowships
- The use of United Nations (UN) agencies
- Publishing Islamic culture books distributed by the Qatar Foundation

---

\(^{35}\) Ibid.

\(^{36}\) Ibid.
• In-kind gifts

Qatari money has been awarded to the following Yale University schools:

• Yale School of Medicine
• Yale Jackson School of Global Affairs
• The Whitney and Betty MacMillan Center for International and Area Studies at Yale

Qatari entities operating under the aegis of the government of Qatar, which are responsible for financial transactions and serve as intermediaries for fund transfers, include:

• Qatar Foundation for Education, Science and Community Development (QF)
• Qatar Fund for Development (QFFD)
• Qatar Investment Authority (QIA)
• Qatar Charity (QC)

The QF, QC and QFFD are financed and controlled solely by the government of Qatar and therefore may be regarded as representatives of the State of Qatar. However, the Qatari government classifies these entities as non-governmental organizations.

Qatari-funded joint projects involving Yale University

Yale University disclosed its collaboration with the Qatar Foundation in the framework of the Yale World Fellows Program (WFP) to the DOE. It was first highlighted on June 5, 2014, in a Yale News article that mentioned that the WFP was “working in close collaboration with the Qatar Foundation.”37 The Qatar Foundation was subsequently mentioned in relation to the WFP on March 17, 2017.38

Yale University further disclosed $284,668 in Qatari funding in July 2015. However, this was reported to the DOE reporting system only after a DOE

38 Maurice R. Greenberg World Fellows Program, Yale Jackson School of Global Affairs, n.d., https://worldfellows.yale.edu/?s=qatar
investigation was published in October 2020,39 revealing that “Yale University apparently failed to comply with federal reporting obligations when it underreported its foreign gifts and contracts by $375 million.”40

Section 117 of the Higher Education Act of 1965 (HEA) requires all domestic institutions that receive any federal financial assistance and that offer a bachelor’s degree or higher, or that offer a transfer program of not less than two years that is acceptable for credit toward a bachelor’s degree, to report foreign gifts. An institution must submit a report if the total of all gifts from and contracts with a foreign source, alone or combined, has a value of $250,000 or more for a calendar year or if it is owned or controlled by a foreign source.41

Based on our investigation, Yale University has only disclosed one grant from Qatar since 2012, worth $284,668, to the DOE reporting system. We believe that this disclosure, which was reported in 2020, as a contract that began in 2015 relates to a contract linked to the WFP, and that it is not the only Qatari grant to the WFP. When considering the data submitted by Yale, our estimation is that Qatar concluded two funding agreements with Yale between 2012 and 2017. We further estimate that the annual grant was approximately $200,000 and that the total grant amounted to approximately $1,200,000.

**The National Priorities Research Program (NPRP) Grants**

The National Priorities Research Program (NPRP) is the main funding program within the Qatar National Research Fund (QNRF). The Qatar Research Development and Innovation Council (QRDI) has funded several research projects involving Yale researchers and scholars.

The following 10 examples describe grants that were awarded by NPRP to projects involving Yale University researchers and scholars. ISGAP estimates that these projects received over $9,000,000 between 2013 and 2020:

---

40 Ibid.

1. **NPRP 6-1383-3-335**: Medical Risk Factors for Perinatal Depression, granted in 2013 (estimated value is $1,048,156.26)\(^{42}\)

This grant was awarded to Professor Margaret Altemus, Associate Professor of Psychiatry in Integrative Medicine,\(^{43}\) Weill Cornell Medical College (2004–2015).\(^{44}\) As an Associate Professor of Psychiatry at the Yale School of Medicine from 2015 to the present, Altemus also received funding from Qatari sources by participating in a research project conducted by Weill Cornell Medicine–Qatar.

2. **NPRP 12S-0305-190231**: PPGSynth: An Innovative Toolbox for Synthesizing Regular and Irregular Photoplethysmography Waveforms, granted in 2020 (estimated value is in excess of $1,000,000).\(^{45}\)

3. **NPRP 12S-0305-190231**: Assessment of Hypertension Using Clinical Electrocardiogram Features: A First-Ever Review, granted in 2020 (estimated value is in excess of $1,000,000).\(^{46}\)

   Granted to Dr. Aymen Alian, Associate Professor of Anesthesiology, Division Chief, Obstetric and Gynecological Anesthesiology, Yale School of Medicine.\(^{47}\)

   This research was also supported by the Natural Sciences and Engineering Research Council of Canada (NSERC), via grant RGPIN-2014-04462, and the Canada Research Chairs program.\(^{48}\) The connection between the Qatar grant and NSERC-funded research suggests the need for transparency about foreign funding sources. This is necessary to maintain research integrity and prevent foreign influence in work sponsored by the Canadian government.

4. **NPRP 29-6-7-30**: CO\(_2\) Injection in Oil Reservoirs and Saline Aquifers in Qatar for Carbonate Sequestration and Improved Oil Recovery, granted

---

\(^{44}\) Ibid.

\(^{47}\) “Aymen Alian, MBChB,” Yale School of Medicine, n.d., https://medicine.yale.edu/profile/aymen-alian/

between January 2008 and December 2009 (estimated value is $1,029,978).  

5. **NPRP 09-1050-2-405**: Theoretical and Experimental Study of Asphaltene Deposition During CO\(_2\) Injection in Qatar’s Oil Reservoirs, granted between December 2010 and November 2013 (estimated value is $413,000).  

Granted to Professor Abbas Firoozabadi of the Yale University Department of Chemical and Environmental Engineering.

6. **NPRP 10-1231-160069**: Sustainable Reuse of Hypersaline Oil Produced Water for Green Energy Production, granted between 2018 and 2021 (estimated value is in excess of $1,000,000).

This grant was for a project conducted by Texas A&M at Qatar in collaboration with Professor Menachem Elimelech, Sterling Professor of Chemical and Environmental Engineering in the School of Engineering & Applied Science, Yale University.

7. **NPRP 6-1463-3-351**: Pyruvate Dehydrogenase Complex-E2 Deficiency Causes Paroxysmal Exercise-Induced Dyskinesia, granted in 2017 (estimated value is in excess of $1,000,000).

This study by the Yale Center for Mendelian Disorders was also supported by the Broad Institute (UM1HG008900 to D. MacArthur), the Yale Center for Mendelian Disorders (U54HG006504 to R. Lifton and M. Gunel), NIH grants P01HD070494, 1R01NS098004, R01NS048453 and R01NS052455, the Simons

\textsuperscript{56} Ibid. 

QAFCO Chair of Green Chemistry at Texas A&M University at Qatar.\textsuperscript{60} Anastas took public service leave from Yale to serve as Assistant Administrator of the United States Environmental Protection Agency and was an Agency Science Advisor from 2009 to 2012.\textsuperscript{61}

In 2013, the Center for Green Chemistry and Green Engineering at Yale announced “the establishment of a research collaboration in Qatar made possible by QAFCO who sponsored the first Green Chemistry and Engineering Chair at TAMQ. Prof. Anastas said, ‘I look forward to this exciting collaboration that will result in exchanges and mutual visits. It shows leadership in Green Chemistry and Green Engineering in the Middle East by TAMQ and QAFCO.’”\textsuperscript{62}

On June 10, 2013, it was published that:\textsuperscript{63}

“Texas A&M University at Qatar and Qatar Fertilizer Company (QAFCO) have announced a collaboration to bring a world-recognized environmental expert to Qatar. U.S. environmental policy and green chemistry expert, Dr. Paul Anastas, has been recognized as the first holder of the QAFCO Chair in Green Chemistry and Green Engineering at Texas A&M University at Qatar... It is expected Anastas will also initiate research projects with funding from the Qatar National Research Fund and local Qatar industry.”

This Qatari grant is not disclosed. ISGAP estimates the value of the Qatari grants to the above research to be $1,000,000.\textsuperscript{64}

\textbf{World Innovation Summit for Education (WISE)}

The World Innovation Summit for Education (WISE), established in 2009 by the Qatar Foundation, focuses on transforming education through innovation.\textsuperscript{65} WISE organizes an annual flagship summit that brings together education stakeholders from around the world to generate dialogue and

partnerships. In addition to the summit held in Doha, along with a range of other initiatives, WISE aims to promote novel approaches to education and investigate fresh ways to address urgent global education needs.

In the context of its activities, WISE maintains relationships with staff and scholars at Yale University.

WISE is supported by the Qatar Foundation and Banco Santander, through its Santander Universities Global Division. According to its website, “WISE is a dynamic platform that promotes innovation in education through a diverse portfolio of initiatives in policy engagement, research, leadership, and practitioner programs.”

At the November 2011 WISE summit in Doha, Qatar, the members of the jury for WISE’s 2011 awards included Linda Koch Lorimer, then (she retired in April 2015) Vice President and Secretary of Yale University.

On June 5, 2014, Yale News announced that “Yale University and The Santander Group entered into formal agreements on June 5…. With support from Banco Santander, Yale will establish new partnerships to foster international leadership, cooperation, and exchange with the World Innovation Summit for Education (WISE).”

In March 2017, Yale World Fellows Program (WFP) director Emma Sky and four World Fellows participated in the WISE summit in Athens, Greece. As noted in a related grant application, “collaborating closely with the Qatar Foundation, WFP is creating an international platform for the education and

---

development of globally engaged young leaders for the World Innovation Summit for Education (WISE).  

At the 2019 WISE summit in Doha, Qatar, attendees included members of the Human Nature Lab at Yale University, led by Professor Nicholas Christakis, who was a featured speaker.  

Other participants from the lab included Marcus Alexander, Mark McKnight, and Wyatt Israel.  

The founding director of the Yale Center for Emotional Intelligence at the Yale School of Medicine, Professor Marc Bracket, was a speaker at the 2021 WISE summit, which took place in Doha, Qatar, and online on December 7–9, 2021.

Mr. Salvador Medina has a close relationship with both the Qatar Foundation and Yale University. Medina is an active member of several boards, including the Yale President’s Council for International Activities. Medina attended the 2019 WISE summit, which took place in Doha, Qatar, on November 19–21, 2019. Crucially, Medina is part of the ten-person 2023-24 WISE Edtech Accelerator committee.

ISGAP estimates that the total funding invested by WISE in its collaborations with Yale amounts to approximately $1,500,000.

**World Innovation Summit for Health (WISH)**

The World Innovation Summit for Health (WISH) is an initiative of the Qatar Foundation for Education, Science, and Community Development.

Dr. Jodi Sherman, Medical Director of Sustainability at Yale New Haven Health was a panelist at the WISH summit that took place in Doha, Qatar, on October 4–6, 2022. Sherman is Associate Professor of Anesthesiology at the Yale School of Medicine, Associate Professor of Epidemiology in

---

Environmental Health Sciences, and founding director of the Yale Program on Healthcare Environmental Sustainability at the Yale Center on Climate Change and Health. To our knowledge, she was the sole Yale staff member at this summit.

The Qatari grant has not been disclosed.

**Hamad Bin Khalifa University (HBKU), Qatar, and Yale University**

Hamad Bin Khalifa University (HBKU) is located within Education City, Doha, and is a member of the Qatar Foundation. Dr. Biswas Assistant Professor in the College of Health and Life Sciences, and Mr. Wesam S. Ahmed, a PhD student in Biological and Biomedical Sciences, collaborated with Yale University researchers on a project entitled “SARS-CoV-2 accessory proteins ORF7a and ORF3a use distinct mechanisms to down-regulate MHC-I surface expression.”

ISGAP estimates that the Qatari grant in support of this collaboration amounts to $1,000,000.

**Qatar Investment Authority and Yale University**

The Qatar Investment Authority (QIA) serves as the sovereign wealth fund for the State of Qatar. QIA owns the Spanish renewable energy company Iberdrola, which owns the US-based renewable energy solutions company Avangrid. QIA bought 6.16 percent of Iberdrola in March 2011 for €2,021 million. Iberdrola, which owns around 81.6 percent of its U.S. subsidiary Avangrid, has launched an offer to acquire the remaining 18.4 percent in the company for $2.48 billion.

Between 2019 to 2021, Yale University collaborated with Iberdrola and Avangrid on a joint project focused on solar energy and storage solutions. As part of this collaboration, Yale received a grant of $624,577 from Iberdrola

———

83 Ibid.
and $247,498 from Avangrid. It was announced that “officials with Avangrid and Yale University’s School of Forestry & Environmental Studies have announced a three-year agreement in which Orange-based utility holding company Avangrid will contribute an average of $200,000 a year to promote innovative activities among students in the program.”

There is an additional contract between Yale University and Avangrid, signed in May 2023, which,

“made a deal to contribute $510,000 to Yale University to support research projects that focus on advancing the transition to clean energy. The energy company will provide Yale with $170,000 per year over the course of three years, according to the utility. The collaboration between Yale and Avangrid began in 2019. It supports research into solar energy, battery storage, electric vehicles, energy policy and other topics related to growing the clean energy industry.”

ISGAP estimates that Iberdrola’s funding of the collaboration with Yale University amounts to $624,577. Furthermore, Avangrid provided an annual contribution of $200,000 between 2019 and 2021. In addition to the 2023 agreement, ISGAP estimates that the total funding for this initiative amounts to approximately $1,734,577.

Yale Jackson School of Global Affairs

The Yale Jackson School of Global Affairs is working in close collaboration with the Qatar Foundation. An Associated Press investigation found that former CIA officer Kevin Chalker aided the Qatari government in securing the rights to host the 2022 FIFA World Cup, prior to teaching two graduate seminar courses at the Yale Jackson School of Global Affairs.

Additionally, Robert Malley – a Senior Fellow at the Yale Jackson School and the Biden administration’s Iran envoy – is currently under investigation by

the Federal Bureau of Investigation (FBI) to ascertain whether he transferred classified information to a personal email account where a foreign actor gained access to it.\textsuperscript{93}

**The Whitney and Betty MacMillan Center for International and Area Studies**

The Whitney and Betty MacMillan Center for International and Area Studies at Yale University works in close collaboration with the Qatar Foundation in the following areas:

(a) the WISE Learner’s Voice Program;\textsuperscript{94}
(b) the Yale Council on Middle East Studies (CMES);\textsuperscript{95} and
(c) the Yale World Fellows Program (WFP).\textsuperscript{96}

**Yale World Fellows Program (WFP)**

On January 18, 2011, *Yale News* announced that Yale University was set to partner with Banco Santander.\textsuperscript{97} The partnership funds “the Yale World Fellows program and study abroad scholarships for students of European and Arabic languages and for those who travel to Spanish-speaking countries. ... Jane Edwards, dean of professional and international experience, said she thinks the fellowships are valued at ‘about $200,000 a year for three years’.\textsuperscript{98}

Dr. Michael Cappello directed the Yale World Fellows Program (WFP) from 2007 to 2015.\textsuperscript{99} Dr. Cappello has participated as a mentor in the WISE Learners’ Voice Program since 2013.\textsuperscript{100}

---

\textsuperscript{96} The Maurice R. Greenberg World Fellows Program, Yale Jackson School of Global Affairs n.d., [https://worldfellows.yale.edu/](https://worldfellows.yale.edu/)

\textsuperscript{98} Ibid.

\textsuperscript{99} Ibid.

The WFP has worked in close collaboration with the Qatar Foundation for the education and development of globally engaged young leaders for WISE.\textsuperscript{101} While we know that the WFP was launched in 2002, the commencement of the collaboration between the WFP and the Qatar Foundation has not been disclosed.\textsuperscript{102} In March 17, 2017, the Qatar Foundation and Banco Santander financially supported the program.\textsuperscript{103}

Based on the above, ISGAP estimates that, to date, the total Qatari grants to Yale University amount to approximately $15,925,711.

Yale University Employees and Connections with Qatar

**Linda Koch Lorimer**

Linda Koch Lorimer, Yale’s longest-serving officer, retired as the university’s Vice President in April 2015.\(^{104}\) She remained a part-time special counsellor to the President until 2016.\(^{105}\) At the time of her retirement, she was Vice President for Global and Strategic Initiatives at Yale University.\(^{106}\)

Linda Koch Lorimer served as the Senior Counsellor to the President and the leader of major strategic initiatives for Yale University and was the Vice President of Yale University for 23 years.\(^{107}\)

Lorimer had connections with WISE during her employment at Yale, at the same time as the university underreported funding received from Qatar. For example, she served on the awards jury at the 2011 WISE World Innovation Summit for Education, where the victors were awarded a gold medal and a cash prize of $500,000.\(^{108}\) Additionally, Lorimer is featured on the WISE website.\(^{109}\)

**Stephen A. Schwarzman**

Stephen A. Schwarzman is the CEO of the Blackstone Group and a Yale University graduate. Schwarzman is a significant donor to Yale University, as apparent from the fact that he made “a $150 million path-breaking gift” to “create a world-class, state-of-the-art campus center by renovating the historic Commons and Memorial Hall.”\(^{110}\) Significantly, Schwarzman is also on the Advisory Board of the Qatar Foundation for Education, Science, and Community Development.\(^{111}\)

---

\(^{105}\) Ibid.

Additionally, other faculty and staff from Yale University have featured on the WISE website. Below are a few examples, taken from an extensive list:

- Fareed Zakaria is a Yale graduate and in early 2006 was appointed as a trustee of the Yale Corporation. Zakaria was additionally a keynote speaker during an October 15, 2022, opening of Yale Jackson School of Global Affairs. Notably, on November 14, 2017, Zakaria was a keynote speaker at the World Innovation Summit for Education (WISE) summit in Doha, Qatar;

- Dr. Marc Brackett, Founding Director of the Yale Center for Emotional Intelligence; Professor in the Child Study Center, Yale School of Medicine;

- Ms. Charlotte Evans, Program Manager of Leadership and Global Citizenship at the Center for International and Professional Experience, Yale-NUS College, Singapore;

- Nicholas Christakis, Sterling Professor of Social and Natural Sciences, Yale University;

- Dr. Michael Cappello, Director of Yale World Fellows Program;

- Professor Muhammad Waqar Azeem, Associate Clinical Professor, Yale Child Study Center.

While it is not illegal for Yale University employees and donors to have connections with Qatari institutions, there is a problematic lack of transparency around the financial relationships between these institutions and the university.
Policy Recommendations

To counter Qatar’s detrimental influence on U.S. higher education and national security, the following measures should be implemented:

1. Prohibit any further direct Qatari government funding to U.S. universities operating in Qatar or in the United States. Require full disclosure under the Foreign Agents Registration Act of any Qatar-linked funds (and other foreign funds originating from anti-democratic sources) already received by U.S. universities.

2. Open a federal government investigation into non-reporting of foreign donations to U.S. universities. Take criminal action against systematic underreporting by U.S. universities and individuals of financial donations received directly or indirectly from Qatar. The investigation should explore the impact of Qatari and other foreign funding on the increase of antisemitism in higher education.

3. Enforce the law on indirect funds that circumvent reporting requirements.

4. Add a provision to Section 117 of the Higher Education Act 1965 that mandates the disclosure of grantees who maintain any significant connection to Qatar, either directly or indirectly.

5. Investigate and prosecute any undisclosed Qatari or other foreign funding of U.S. university programs or personnel as illegal, unregistered foreign lobbying. Shut down programs funded through such illicit means.

6. Establish ethics review boards at U.S. universities to monitor foreign funding sources and block unacceptable donations or partnerships compromising academic integrity.

7. Enact further transparency laws requiring full public disclosure of any foreign contracts, grants, or donations received by U.S. universities, including itemized reporting on collaborative projects, travel sponsorship, endowed faculty chairs, and other benefits.

8. Introduce legislation to ensure transparency of financial statements and internal audit reports of U.S. universities.
